Projects

Ongoing   **UniHelp at UniHelp Team**
                     Web-based community for university students.
                     Help each other, share files and notes, create threads,
                     read your university newsletter and much more.

Side Projects

Ongoing   **Hej**
                     A support chat to connect companies to clients. If you
                     need help, click on Hej button.
                     Create a chat, solve your problem and maybe save the
                     transcription in your account.

Work Experience

2021 — Now   **Freelance Web Developer and Designer at Myself**
                     On the web

                     Design and development of websites and mobile apps.

Education

2021 — Now   **University of Catania**
                     Catania, Italy

                     2nd year computer science (L-31) student at University of
                     Catania.
